State of items

All our items are technically checked and found to be OK. Lens elements are free of scratches and/or fungus. If not, it will be explicitly mentioned in the description.

Vintage and Guarantee

Our items are considered as vintage. Because of the age of these items, is it not always possible to guarantee the precise working of shutters, diaphragm or other functions. When a problem arises we will off course try to solve the matter in a satisfying way. Common sense will then be the keyword.
